NO APPOINTMENT NECESSARY

Your Blood Pressure. . .

Systolic (top number) is the measurement of pressure in the blood vessels when the heart beats.

Diastolic (bottom number) is the measurement of pressure in the blood vessels when the heart rests between beats.

Reading below 140 over 90 fall within the normal range. Readings consistently above 140 over 90 warrant a visit to your physician.

Name _____

Date	Time	Systolic / Diastolic
